QC34

Definitions:

In-patient hospitalization is a formal admission to the in-patient service of a hospital or clinic for care or treatment.

An **amputation** is the traumatic loss of a limb or other external body part. Amputations include a part, such as a limb or appendage, that has been severed, cut off, amputated (either completely or partially); fingertip amputations with or without bone loss; medical amputations resulting from irreparable damage; amputations of body parts that have since been reattached. Amputations **do not** include avulsions (tissue torn away from the body), enucleations (removal of the eyeball), degloving (skin torn away from the underlying tissue), scalping (removal of the scalp), severed ears, or broken or chipped teeth.
